SPECIAL SAFETY ISSUE

Number 5

An IMPORTANT SAFETY MESSAGE from

Neil Norkaitis,

Operations Director, Museum of Transportation Trolley Volunteers.

Over the past few weeks, it has been observed that a number of our operators are taking liberties or just being careless in the carrying out of their duties. Therefore, we are reminding you that all the instructions in our MTTV Manual are there for a purpose or as a result of an action or incident here or in another railroad operation.

*Before each of you operates the next time, we advise that you thoughtfully **READ** the manual from end to end focusing specially on the safety matters contained therein.*

If in reading the manual, you find anything that you do not understand because it was not covered clearly during training, or for whatever other reason, call or email Neil Norkaitis at 314-863-7699, neilnork@charter.net.

We have an excellent safety record up to this time. It takes only an attention lapse of seconds to mess that up. Please stay on the ball!

SAFETY IS EVERYBODY'S RESPONSIBILITY!
